## Professional Summary

---

Results-driven Full Stack Web Developer with hands-on experience building scalable, responsive, and high-performance web applications using MERN Stack, Next.js, and Firebase. Skilled in developing REST APIs, authentication systems, and dynamic user interfaces for e-commerce and business platforms. Experienced in optimizing website performance, improving user experience, and deploying production-ready applications. Strong problem-solving, analytical, teamwork, communication, and project management skills with a passion for learning modern technologies.

## Technical Skills

---

**Programming Languages:** JavaScript, Python

**Frontend Technologies:** HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Bootstrap, EJS

**Backend Technologies:** Node.js, Express.js, MongoDB, Firebase, REST APIs

**Libraries & Tools:** Mongoose, Axios, JWT, bcrypt, Dotenv, Git, GitHub, Postman, VS Code

**Core Skills:** Problem Solving, Teamwork, Communication, Leadership, Analytical Skills, Time Management, Adaptability, Project Management

**Other Tools:** Microsoft Word, Excel, PowerPoint, Canva

## Experience

---

### Atharva University — Full Stack Web Developer

Jul 2026 – Present

- Develop, maintain, and enhance the university's official website using **code-based and no-code/low-code platforms**, depending on project requirements.
- Develop and integrate backend functionality using **Node.js, Express.js, Firebase**, and RESTful APIs for dynamic data management and third-party service integration.
- Build responsive and interactive web interfaces using **HTML5, CSS3, JavaScript**, and modern web development practices.
- Work extensively with **WordPress**, including theme and plugin customization, template development, page building, forms, content management, and custom functionality.
- Manage website hosting, domains, SSL, email services, databases, backups, deployments, and server configurations using **cPanel**.
- Integrate external APIs and services to extend website functionality and connect the university website with external systems.
- Optimize website performance, security, SEO, mobile responsiveness, and cross-browser compatibility to ensure a reliable user experience.
- Troubleshoot and resolve website, server, API, and integration issues while collaborating with university departments to implement and maintain digital solutions.

### PTCGRAM PVT. LTD. — Website Developer

Feb 2026 – Jun 2026

- Developed and maintained multiple business and e-commerce websites including **ilika.in, ptcgram.com**, and **thefuturex.in** using **MERN Stack** and **Next.js**.
- Built scalable and responsive web applications using **React.js, Next.js, Node.js, Express.js, MongoDB**, and **Firebase**, improving website performance and user experience.
- Developed and integrated RESTful APIs for secure authentication, product management, and efficient data handling.
- Implemented Firebase services for authentication, real-time database functionality, and cloud integration.
- Optimized website speed, security, SEO, and cross-browser compatibility, reducing loading times and improving responsiveness.

- Collaborated with clients and team members to deliver customized business solutions while maintaining clean coding practices and scalable architecture.

## Projects

---

### CineMate – Movie Detail Web Application

- Developed a responsive movie information web application using HTML, CSS, JavaScript, and TMDB API.
- Implemented advanced search and dynamic movie listing features to improve user engagement and browsing experience.
- Designed a clean and mobile-friendly UI with optimized API integration and fast-loading pages.

### BizManage – Business Management System

- Built a full-stack business management application using React.js, Node.js, Express.js, and MongoDB.
- Implemented secure JWT authentication and role-based authorization for improved system security.
- Designed responsive dashboards for managing clients, projects, invoicing, and workflow tracking.
- Improved application usability and scalability through reusable components and optimized backend APIs.

## Education

---

|                                                |             |
|------------------------------------------------|-------------|
| <b>Bachelor of Science in Computer Science</b> | 2022 – 2025 |
| Mumbai University – Nagindas Khandwala College |             |
| CGPA: 9.91                                     |             |

|                                                           |             |
|-----------------------------------------------------------|-------------|
| <b>Higher Secondary Certificate (HSC)</b>                 | 2021 – 2022 |
| Sheth Vidya Mandir English High School and Junior College |             |
| Percentage: 77%                                           |             |

## Achievements

---

- Developed and delivered multiple live business and e-commerce websites for real-world clients.
- Maintained excellent academic performance with a CGPA of 9.91 in Computer Science.
- Demonstrated strong adaptability and fast learning while working on modern full-stack technologies.
